

Workplace Inclusion Now™

people • communities • employers

An employment initiative from Autism Speaks.

Workplace Inclusion Now™ (WIN) brings together people with autism and related challenges, communities and employers to build and support inclusive, welcoming workplace culture.

People

People with autism and related challenges are ready and willing to work – and they have the skills and talents for a range of industries and roles.

WIN equips students, job seekers and employees with information, resources and support to find meaningful work and navigate the workplace.

Communities

Workplace Inclusion Now is founded on the idea that by working together as a community, we can make the greatest impact in transforming employment for people with autism and related challenges.

WIN works with community partners to support autistic people in finding, applying, getting and maintaining a job.

Employers

National data shows that most autistic adults are unemployed or underemployed, despite having the skill sets and expertise to excel in the workplace.

WIN helps businesses committed to inclusion to transform this through consultation, training, programs and opportunities to access this untapped talent pool.

Together, we can create sustainable inclusion for everyone at work. Autism Speaks is here to help.
