Cleveland's top chefs, culinary enthusiasts and corporate partners will come together for a celebration of food, fun and philanthropy to raise funds and awareness for Autism Speaks.

ABOUT AUTISM

Autism, or autism spectrum disorder, refers to a broad range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication. We know that there is not one autism but many subtypes, and each person with autism can have unique strengths and challenges. A combination of genetic and environmental factors influences the development of autism, and autism is often accompanied by medical issues such as gastrointestinal disorders, seizures and sleep disturbances.

Autism affects 1 in 36 children and 1 in 45 adults in the U.S.

ABOUT AUTISM SPEAKS

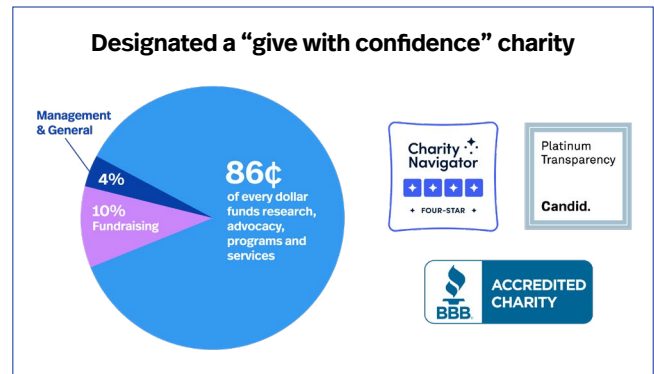

Autism Speaks is dedicated to creating an inclusive world for all individuals with autism throughout their lifespan. We do this through advocacy, services, supports, research and innovation, and advances in care for autistic individuals and their families.

We're here to help.
